Please make any overall comments or observations about this instructor or course:

Dr. Braver is one of the smartest human beings I have ever met, and Texas Tech is unbelievably lucky to have him. Under a less capable instructor, this class would have been nearly indescribable - a real mess. But the way Dr. Braver taught it - guiding the whole way - made it not only challenging and rewarding but very accessible as well.

I know we was cautiously optimistic at the begining of the semester that we would find this material useful in the greater scheme of our academic lives, and I think, without a doubt, we has succeeded. I only wish this course were several semesters longer. I feel there's still so much to learn. So many more languages! So much more data! Really great course!

Please make any overall comments or observations about this instructor or course:

It's been an amazing class, it's a very rich theory class, very interesting. Thought this class delivered too much input for one meeting with (coverage 30%) Homeworks is very good exercise but again too many. Overall, Phonology is very great knowledge to learn. you basically learn all languages in one semester.

Please make any overall comments or observations about this instructor or course:

This course was a really hard one for me because I'm more into SLA and AL than theoretical linguistics. However, I learned so many things that I hope it would be useful in my field, and later in my PhD program.

Thank you Dr. Braver

Please make any overall comments or observations about this instructor or course:

Dr Brauer is a very educated person in the phonology field. However, he should reconsider the amount of the material he gives in each class. I felt very packed at the end of each class. He also should slow down the way he speaks. Other than that, he is very competent, intelligent and helpful.
